## **Annual Engagement Policy Implementation Statement**

### **Introduction**

This statement sets out how, and the extent to which, the stewardship policy and related policies on environmental, social and governance (“ESG”) factors and climate change set out in the Statement of Investment Principles (‘SIP’) have been followed during the year to 30 June 2025. This Statement has been produced in accordance with The Occupational and Personal Pension Schemes (Disclosure of Information) Regulations 2013 and subsequent amendments; and the statutory and non-statutory guidance from the Department of Work and Pensions.

### **Investment Objectives of the Scheme**

The Trustees believe it is important to consider the policies in place in the context of the investment objectives it has set. As set out in the SIP, the Trustees’ primary investment objective is to achieve an overall rate of return that is sufficient to ensure that assets are available to meet all liabilities as and when they fall due. The Trustees’ secondary objective is to achieve a sufficient level of funding which then allows them to secure the liabilities of the Scheme with an insurance company.

In doing so, the Trustees also aim to maximize returns at an acceptable level of risk, taking into consideration the circumstances of the Scheme. The objectives set out above provide a framework for the Trustees when making investment decisions.

The Trustees have also received confirmation from the Scheme Actuary during the process of revising the investment strategy that their investment objectives and the resultant investment strategy are consistent with the actuarial valuation methodology and assumptions used in the Statutory Funding Objective.

### **Scheme’s Investment Structure**

The Scheme has a Trustee Investment Policy (‘TIP’) with Mobius Life Limited (‘Mobius’), and an additional off platform holding with Baillie Gifford which was terminated during the Scheme year. Mobius provides an investment platform and enables the Scheme to invest in pooled funds managed by third party investment managers. The Trustees, with advice from their investment consultant, Mercer, are responsible for the selection and removal of the Scheme’s pooled funds.

During the year to 30 June 2025, the Scheme implemented a new investment strategy. To do so, the Trustees agreed to disinvest from the equity and Diversified Growth Fund with Baillie Gifford and from the Stone Harbor Multi Asset Credit fund. Proceeds from these sales were, subsequently, invested in a passive global equity mandate managed by L&G, in the existing Diversified Growth Fund with Nordea and into a Multi-Asset Credit mandate with M&G.

### **Review of the SIP**

The Trustees keep their policies within the SIP under regular review, subject to full review at least triennially. Over the twelve-month period to 30 June 2025, the Trustees updated the SIP to reflect the changes made to the investment strategy following advice from their investment consultant, Mercer. The current SIP, updated in January 2025, is available at the link below:

## YEAR ENDED 30 JUNE 2025

---

### **Policy on ESG, Stewardship and Climate Change**

The Scheme's SIP includes the Trustees' policy on Environmental, Social and Governance ('ESG') factors, stewardship and climate change. This policy sets out the Trustees' beliefs on ESG and climate change and the processes followed by the Trustees in relation to voting rights and stewardship. The policy in question was last approved in January 2025.

The Trustees believe that environmental, social, and corporate governance factors may have a material impact on investment risk and return outcomes, and that good stewardship can create and preserve value for companies and markets as a whole. The Trustees also recognise that long-term sustainability issues, particularly climate change, present risks and opportunities that increasingly may require explicit consideration.

The Scheme also has allocations to credit assets within which, whilst ESG issues are still relevant to risk control, there is less opportunity to influence investee company behaviour compared to equity holdings, although where relevant managers are encouraged to use their position as lenders of capital to engage with companies.

The Trustees have given the appointed investment managers full discretion in exercising voting rights and stewardship obligations attached to the investments, in accordance with their own corporate governance policies and current best practice, including the UK Corporate Governance Code and UK Stewardship Code. All managers confirmed that they are signatories of the UK Stewardship Code.

The Trustees keep their policies under regular review, with the SIP subject to review at least triennially.

### **Engagement**

In the relevant year the Trustees have not engaged with either Mobius, or the underlying pooled fund managers on matters pertaining to ESG, stewardship or climate change. However, the Trustees, with help from their investment consultant, review the stewardship and ESG policies of the fund managers periodically.

The Trustees are working with their investment consultant, Mercer, to consider actions that can be taken to engage with their underlying fund managers going forward. This includes the inclusion of ESG specific ratings within biannual performance reporting (with ratings derived by the investment consultant) and this will help to determine whether further action should be taken in respect of specific funds.

Performance reports provided on a bi-annual basis include fund specific ESG assessment.

### **Voting Activity**

Following the DWP's consultation response and outcome regarding Implementation Statements on 17 June 2022 ("Reporting on Stewardship and Other Topics through the Statement of Investment Principles and the Implementation Statement: Statutory and Non-Statutory Guidance") one of the areas of interest was the significant vote definition. The most material change was that the Statutory Guidance provides an update on what constitutes a "significant vote".

The Trustees define a significant vote as one that is linked to the Scheme's stewardship priorities/themes. In this instance, the Trustees are comfortable with aligning to the underlying manager's voting priorities. A vote could also be significant for other reasons, e.g. due to the size of holding. Given the nature of the Scheme's holdings, this is unlikely to be a material consideration for the Trustees.

## YEAR ENDED 30 JUNE 2025

Over the last 12 months to 30 June 2025, the voting activity on behalf of the Trustees was as follows:

### BMO – Nominal and Real Dynamic LDI

Due to the LDI Nominal Dynamic LDI Fund and LDI Real Dynamic LDI not having any underlying equity holdings, the Trustees are not eligible to vote at company meetings.

### BMO – Equity – Linked Nominal and Real Dynamic LDI

Due to the equity exposure of these funds being obtained synthetically through the use of equity futures, the Scheme does not hold shares in the underlying companies and so the Trustees are not eligible to vote at company meetings.

### Baillie Gifford Diversified Growth Fund

As the Scheme was only partially invested in the fund during Q3 2024 (redemption occurred in August 2024), its voting activity is not considered material in the context of the overall voting results and therefore has been omitted from this report.

### Stone Harbor - Multi-Asset Credit Portfolio

Due to the Multi-Asset Credit Portfolio not having any underlying equity holdings, the Trustees are not eligible to vote at company meetings.

### M&G Total Return Credit Investment Fund

Due to the Multi-Asset Credit Portfolio not having any underlying equity holdings, the Trustees are not eligible to vote at company meetings.

Below is a summary of voting activity as well as examples of voting activity on behalf of the Trustees over the Scheme year to 30 June 2025 (except where stated otherwise).
